

## Consider the consequences Answers

- I) SS answers. Stress that consequences are things that happen naturally, as the result of action. There are consequences of misbehavior even if you don't get caught. Punishment on the other hand, is something that other people do to you, after the action. E-g: If you're speeding and you cause an accident and get a ticket as a result. The accident is the consequence of your action. The ticket is form of punishment.
